

# CONTROL

## AT THE TOUCH OF A FINGER

### DIGITAL CAR OPERATING PANEL

Introducing Residential Elevators' new digital, touchscreen Car Operating Panel (COP). Available as an upgrade, the digital COP enhances the user experience and adds an innovative touch to any cab style.

The digital COP allows homeowners to personalize aspects of their elevator, including the screen background, cab light timing, door lock timing, and push-button styles.

Customer-resolvable issues displayed in legible form on the digital COP allow homeowners to quickly resolve items such as an open door or gate. If Customer Support is needed, a unique code is displayed that can be relayed to our customer support team for a quicker response, saving you time and money.

### FEATURES:

- Digital Push Buttons for Floors and Alarm
- User Programmable Access Code to Secure any Floor
- Integrated Phone
- Digital On/Off Light Switch
- Run/Stop Switch
- Easily-Readable, Color-Coded Alerts for Symptom Resolution
- Includes upgraded leveling system to accommodate unique applications with minimal travel distance

Brushed Stainless Steel
